XV Polish-French Colloquium

**“Current problems in applied
soil mechanics and rock mechanics”**

Gdansk, 7-9 October 2010

We are honored to invite you to the 15th Colloquium which will be held in Gdansk, the old Hanseatic City, the capital of Polish Pomerania. The venue is located in Gdansk University of Technology, the Faculty of Civil and Environmental Engineering, Narutowicza Street 11/12, Gdansk.

The conference will focus on the current problems in applied soil mechanics and rock mechanics. The authors are encouraged to present the recent research results both in the theoretical mechanics and the applied one. Presentations and discussions are expected to cover the following areas: laboratory testing, in-situ testing, theoretical solutions, numerical simulations and case histories. The conference language is **English** and **French**.
